## Professional Summary

---

Creative MERN Stack Developer, build 7+ projects based on Full stack and Web development. Currently learning Data Structures & Algorithms with C++ and solved overall 300+ problems on different platforms to enhance my problem solving skills. Passionate about learning technologies to create responsive and dynamic web applications.

## Projects

---

### 1. Unify ☑ - Where Knowledge Connects

**Technologies - Reactjs, Nodejs, MongoDB, RestAPI, Firebase, Bootstrap5, JWT**

Facilitating seamless communication, our platform empowers students to voice their queries while enabling teachers and peers to respond remotely. A hesitation-free zone for doubts, ensuring swift, comprehensive solutions, and collaborative learning.

### 2. EmoSense Analytics ☑ - Movie Review Sentiment Analysis

**Technologies – Reactjs, Nodejs, MongoDB, RestAPI, JWT, LSTM, BiLSTM, Flask**

Role – MERN Full Stack Developer

This is a kind of team project whose motive is to analyze the sentiments of movie reviews using LSTM and BiLSTM. I created a Frontend for this website using Reactjs, and Nodejs is used for authentication purpose, MongoDB is to store the users data, RestAPI is used to connect flask, reactjs, nodejs

### 3. WellnessBox ☑ - Your Path to Healthy Lifestyle

**Technologies - Nodejs, Reactjs, MongoDB, Rest API, Postman, Bootstrap5, RazorPay**

Whether you're looking to enhance your physical fitness, prioritize mental well-being. It provides the tools & resources to help you achieve your wellness goals. Razor Pay payment gateway is used for seamless payment

## Skills

---

Programming Language - C++

Backend Development - Nodejs

Frontend Development – HTML5, CSS3, JAVASCRIPT,

API – Rest Api

REACTJS, Bootstrap5

Database – MySQL, MongoDB

Data Structures & Algorithms

## Education

---

2021 – 2025

**Btech**

Jaipur, Rajasthan

JECRC University

Btech In Computer Science with Specialization Full Stack and Web development associated with XEBIA

9.46/10.0 (1st - 5th semester CGPA)
